

FS 2010-08
FAMILY CAREGIVER SUPPORT PROGRAM
Section 3.8

SECTION				PAGE	STAKEHOLDER COMMENT	KDOA RESPONSE
1	3.8	1		1	Delete "informal" it's redundant since the definition of caregiver 3.8.2.C is that they are "informal".	No change; program description and definitions need to include the term "informal" for clarity
2	3.8	4	C	4	Where did this come from? Is this an AOA mandate? The use of the word "MUST"! Who recruits, trains, and supervises? What are you trying to accomplish? Is there something the AAAs aren't doing that you think volunteers can do? How about "MAY" instead of "MUST"?	Yes, this is a new OAA requirement; see Sections 306(a)(6)(C)(iii) and 373(d)
3	3.8	5	H	6	I would again request that you reconsider the residency requirement...at least expand it to include bordering states and use 3.8.5.I "proximate geographical"...there are people who live close to their parents but parent lives in Kansas and child is across the line in Missouri. You actually penalize the care recipients by this rule.	No change
4	3.8	5	H	6	Access Assistance delete "access" and just say assistance to be consistent with KDOA taxonomy.	Change has been made
5	3.8	5	I	6	"regular daily"...a caregiver can be available on a regular basis as defined by the recipient. What's the reasoning behind "daily"....anyone with a phone is technically "available daily" and sometimes even caregivers take vacations so they are not always available "daily"...but they should always be available on a regular basis as defined by the recipient.	Language changed to clarify
6	3.8	6	A.2.a	7	access assistance delete "access" to be consistent with KDOA taxonomy	Change has been made
