**SB 546/Provider Assessment**

**Bill McDaniel, Commissioner**  
**KDOA Program and Policy**

Chairman Emler and members of the committee, thank you for the opportunity to appear today in support of SB 546. I am Bill McDaniel, Commissioner of Program and Policy at the Kansas Department on Aging (KDOA).

A provider assessment for Kansas nursing homes is not a new idea. It has been proposed several times as a means of financing increases in nursing facility rates and quality improvement initiatives. While recognizing the value of such programs adopted in other states, KDOA remained neutral with regard to adopting such an assessment in Kansas. The neutral position was based on the fact that the provider community has been split on the issue

KDOA has shifted its position to support of the provider assessment because of the current fiscal crisis which has limited the State's ability to fund Medicaid services, including nursing facility rates. The provider assessment is a legitimate method of leveraging additional federal funds for the nursing home program and is approved by the Centers for Medicare and Medicaid Services (CMS). Currently, 36 states and the District of Columbia utilize a nursing home provider assessment.

The Department on Aging administers long term care services under KSA 75-5945 and would administer the assessment as described in SB 546. KDOA has tracked this issue closely, maintained on-going discussions with the nursing home provider associations and considered the experience of our consultants in evaluating provider assessment proposals.

KDOA staff members participated in the Kansas Health Policy Authority (KHPA) Nursing Facility Provider Assessment Advisory Committee meetings and were actively involved in the related technical workgroup meetings, which occurred periodically in 2008 and 2009. The technical workgroup prepared a report, "Nursing Facility Provider Assessment Parameters and Impact Analysis," which was presented and accepted by the KHPA board in January. Many of the parameters and mechanisms recommended in the report are included in SB 546.

It should be noted that SB 546 does not use the nursing home provider assessment to leverage federal funds for the Home and Community-Based Services (HCBS) Frail Elderly and Physically Disabled waivers. The HCBS advocates were members of the advisory committee and such provisions have been part of provider assessment bills put forth in recent years. Their inclusion offers an opportunity to support community-based services that have also been affected by recent budget constraints.

I have included with my testimony a copy of the KHPA report and the related Provider Assessment Summary/Model. The modeling demonstrated the ability to meet the federal requirements for a permissible health care related assessment. We will perform similar modeling for the parameters in SB 546 to help ensure a Medicaid State Plan will be approved by the federal Centers for Medicare and Medicaid Services.

## Nursing Facility Provider Assessment Parameters and Impact Analysis To the KHPA Board: January 26, 2010

### General Parameters

- Assess all Licensed Beds except for nursing facilities for mental health and the state operated Soldiers Home and Veterans Home
- Generate \$15.97 million using a uniform rate of approximately \$725
- A fund should be established to hold the assessment revenues, and the funds should only be used for the Medicaid NF and other Medicaid (HCBS) programs
- Split revenue 85/15 between NF program and other programs
- An advisory board would provide recommendations to the Secretary of Aging on how the funds should be used
- Add \$33.38 million NF reimbursement system with adjustments for
  - Removing the 85% occupancy rule
  - Passing through the Medicaid share of the assessment
  - Applying additional inflation to all costs
  - Increasing incentive payments 250%
  - Spending up to \$1,000,000 on a satisfaction survey program

### Impact Analysis

- Fiscal Impact to Nursing Facilities
  - 314 homes (91%) gain and average of \$57,408
  - 28 homes (8%) lose and average of \$22,669
  - 2 homes (1%) neutral
- Provides \$5.98 million for other programs such as HCBS
- Private pay impact
  - 36 new nursing homes would be subject to a private pay limit unless they raised their private pay rates (the average increase would be \$4.56)
  - If any provider were to pass the assessment directly through to private pay residents, the expense would amount to about \$2.30 per resident day

### Pros and Cons

| Pros                                  | Cons                            |
|---------------------------------------|---------------------------------|
| \$40 M (\$24 M net) Medicaid increase | Potential private pay increases |
| Reward quality performance            | Some providers have net loss    |
| Encourage Medicaid participation      | Not all funding tied to quality |
| Encourage bed closure or recycling    |                                 |

### Cash Flow Analysis

- If enhancements were effective July 1<sup>st</sup> and assessment was collected quarterly by the end of the first month of each quarter, the nursing homes would have a net loss (of \$1.2 M) for the first month but would be ahead from the second month on
- If enhancements were effective July 1<sup>st</sup> and assessment was collected quarterly due by the end of the quarter, the state would have a net loss (of \$2.2 M total) for the first two months, but would be ahead from the third month on

## **Time Line**

- CMS Regional staff have stated that the expectation would be to review both the assessment proposal and any related state plan amendment concurrently
  - The assessment proposal would be reviewed at the CMS central office
  - The state plan amendment would be reviewed at the regional office
- At least four months should be allowed to gain CMS approvals
  - For a July 1, 2010 effective date both the assessment proposal and related state plan amendment should be submitted no later than March 1, 2010, unless it would be implemented retroactively
