

Services Available

Parsons State Hospital & Training Center is pleased to offer our "Toner Refill & Recycling Service"

What We Offer:

- We refurbish and refill toner and ink cartridges. We do not use the drill and fill process. Each cartridge is taken apart; the internal parts are cleaned and damaged parts are replaced, old toner is vacuumed out and new toner is added.
- All ink jet cartridges are filled using the Select Jet 2 Ink Refill Machine. This machine uses a vacuum filled process and digital programming to easily fill and promote quality of our product. This machine re-

fills with original ink that is comparable to a new cartridge purchased at a local retail store.

- We recycle cell phones, ink cartridges, and toner cartridges. We are always happy to refill your cartridges for you or recycle them.
- We also service various Dell and Canon ink cartridges. If you have an unlisted cartridge, please call or come by. We have tried to list each cartridge by number that we are servicing at this time. New ones are added daily.

- The Toner Refill & Recycle Service offers a recycle service for all of your unwanted cell phones, ink and toner cartridges of any type. These can be dropped off in the New Vocational building or call and we will be happy to pick them up. These old cartridges and cell phones are sent to Funding Factory, where they are refurbished or taken apart, and the internal parts are then disposed of properly.

Price List
