UNIFORM PROGRAM REGISTRATION. The KDADS Form UPR-001 is the current Uniform Program Registration (“UPR” or “Form”). It is used to determine eligibility and collect and report program data. See KDADS Field Services Manual Section 2.5 for UPR policies.

The Form changed October 2013. It now supports local registration systems (see below) that make it possible for a customer to easily access, complete and submit either a paper registration, or a computer or web-based registration. A customer may complete the Form without assistance or with face-to-face or telephone assistance from an UPR Reviewer. A customer is not expected to rely on family members or friends to complete the Form.

Because the new Form reflects current monthly poverty level income guidelines, it has an expiration date. It will be updated when poverty guidelines change. These are updated periodically in the *Federal Register* by the US Department of Health and Human Services.

This Form replaces all prior versions issued by the KDADS (and formerly by Kansas Department on Aging). The new Form is available in an English and Spanish language version on the KDADS Provider Resource Website. It has not been translated into other languages by the State.

LOCAL REGISTRATION SYSTEM. The UPR Reviewer must have a working knowledge of policies and procedures the Area Agency on Aging put in place for its local registration system, including:

- How customers obtain a paper registration or access a web-based registration
- How electronic/scanned registrations are accepted, and provisions for electronic signatures for such submissions
- The timeline and standards for Form review and follow-up
- Retention of paper and electronic/scanned records, and related timelines.

The UPR Reviewer’s role is to make sure customers successfully complete registration processes and get needed service(s) and ensure the area agency gets data needed for federal and state program reports from each customer.

MANUAL FOR REVIEWERS. This manual contains information on State requirements for the review of a Form that has been completed by a customer. It is written for UPR Reviewers, those who are designated by an Area Agency on Aging to review completed Form(s).

The UPR Reviewer may also provide face-to-face or telephone assistance leading to the completion of the Form. This manual supports their dual role. It will serve as a resource guide for talking with a customer and recording his/her responses directly on the Form. The need for such interviewing assistance will be on a case-by-case basis. It is expected for a customer who is unable to read or has limited literacy. It may also entail oral interpretation services for those who are limited English proficient.

This manual will be updated at the same time the Uniform Program Registration form is

updated, e.g., when poverty guidelines change. This manual replaces all prior versions issued by the KDADS (and formerly by Kansas Department on Aging). This manual is available in an English language version on the KDADS Provider Resource Website. It has not been translated into other languages by the State.

INTRODUCTION

This manual contains information on reviewing completed registrations for the Older Americans Act Congregate Nutrition Program (Title III C-1), including Congregate Meal-Illness Related Home Delivered. It is also applicable to Nutrition Counseling funded under Title III-C1 (for Congregate Meal customers) and to Assisted Transportation funded under Title III B.

STATUTORY AND REGULATORY AUTHORITY

Statutory authority for these programs is the Older Americans Act (OAA) of 1965 as Amended in 2020. The statutory citation is Public Law 114-144.

Regulatory authority for these programs is found in the Code of Federal Regulations (CFR), 45 CFR Part 1321 (Title III).

ADMINISTRATION OF THE PROGRAMS

These programs are administered at the Federal level by the U.S. Administration for Community Living (ACL) / U.S. Administration on Aging (AOA). At the State level, the programs are administered by the Kansas Department for Aging and Disability Services. The programs are implemented at the local level by the Area Agencies on Aging.

RESOURCES

Regularly check the KDADS Provider Resource Information Website at <https://www.kdads.ks.gov/provider-home> for any updates to the Form and related policies, the UPR manual, and Codes (e.g., Availability, Funding, and Discharge) used therein.

CONTENTS OF REGISTRATION

It is permissible for Area Agencies on Aging to publish the KDADS Form UPR-001 in alternative formats as long as *each item* on the Form is included and the format selected is clear and understandable. Examples of alternative formats include: a large print version printed on legal paper (e.g., 8½ X 14 page) or printed on both sides of standard letter paper (8 ½ X 11 page), and/or web or electronic formats.

The UPR Reviewer must have a working knowledge of all current alternative formats authorized by the Area Agency on Aging as part of its local registration system. Use of a format that is not currently authorized by the Area Agency on Aging is not permissible. The UPR Reviewer must consult area agency policy for rejecting such submissions.

TERMS USED IN THIS MANUAL

Availability Codes -- An official list of one- and two-digit numeric codes (e.g., 1 to 11) used on the Unmet Needs section to describe why a service cannot be provided to a program customer. The Unmet Need Service Availability Codes list is located on the KDADS Provider Resource Information Website.

Discharge Closure Reasons and Codes -- An official list of one- and two-digit numeric codes (e.g., 2 to 99) used on the Plan of Care to describe why a service provided to program customers with funds administered by KDADS is closed. It is located on the KDADS Provider Resource Information Website.

Emergency Contact – A person to contact/notify when there is a service-related need and the customer cannot be reached and/or when there is an emergency involving the customer. Such designation may or may not be made on the Form completed and signed by the customer. However, KDADS *highly recommends* business practices that support having a current emergency contact on file for each customer registered through a local registration system.

Federal Poverty Level Income Guidelines – The annual HHS Poverty Guidelines provide the dollar thresholds representing poverty levels for households of various sizes. Persons considered to be in poverty are those whose income is below the official poverty guideline.

Kansas Aging Management Information System (KAMIS) – Official electronic repository of data about KDADS customers and the service they receive [FSM Section 1.1].

Kansas County Abbreviations – Two-letter alphabetic code used to designate Kansas counties. A list of county abbreviations is on the State Library of Kansas Website at <http://www.kansasheritage.org/research/kanscoun.html>

Nutrition Risk Screen – The DETERMINE Your Nutritional Risk checklist published by the Nutrition Screening Initiative. This screen is completed by a customer who registers for Congregate Meals and/or Nutrition Counseling, but not for other services. A customer who scores **six (6) or higher** on the Nutrition Risk Screen is at High Nutrition Risk as defined by the U.S. Administration for Community Living / U.S. Administration on Aging.

Depending on policies and procedures the Area Agency on Aging put in place for its local registration system, the UPR Reviewer may help resolve certain nutrition risks identified on the screen. This may include referrals for food assistance or general cash assistance (e.g., the Kansas Vision Card, a local food bank or soup kitchen, etc.). It may include help completing an application for benefits (e.g., prescription drug program). It may include information where to seek help in the community with other needs (e.g., dentist, Adult Protective Services office, community mental health center, etc).

Planning and Service Area (PSA) – A geographic area of the state designated by KDADS for the purpose of planning development, delivery and overall administration of services under an area plan [FSM Section 1.1].

There are eleven (11) PSA boundaries in Kansas. Each has a designated two-digit identifying number (e.g., PSA 01...PSA 11). A map showing PSA boundaries, identifying numbers and general agency contact information is available on the ADRC Website at <https://kdads.ks.gov/kdads-commissions/long-term-services-supports/aging-services/aging-and-disability-resource-centers>

Service Taxonomy (or Aging Taxonomy) – An official list of activities (services) that may be provided to program customers using funds administered by KDADS. This list contains Activity Definitions, Activity (Service) Codes, KDADS Administered Funding Source, and Unit Definitions for each activity (service), and organized as shown in this example:

Activity Definition	Activity (Service) Code	KDADS Administered Funding Sources	Unit Definition
Congregate Meals: Meals provided to a qualified individual and consumed in a congregate or group setting with another person. See the nutrition policies for additional program requirements. Note: Choosing Healthy Appetizing Meal Plan Solutions for Seniors (CHAMPSS) program meals are considered CMELs.	CMEL	DISAST OAA III C1	1 meal

Activity Definition – A statement of the meaning that has been adopted for an activity (service) listed in the Service Taxonomy and describes what it is. The definition provides guidance for what might be included within the scope of a particular activity.

Activity (Service) Code – The unique alphabetic code assigned to each activity (service) in the Service Taxonomy. For clarity, the term is shortened to simply Service Code on the Uniform Program Registration and in KAMIS.

KDADS Administered Funding Source Acronym – The unique alphabetic code assigned to each funding source administered by KDADS. At least one funding source is authorized to pay for each activity (service) in the Service Taxonomy.

Unit Definition – A brief statement of the meaning adopted for one unit of measurement of each Activity or Service

The Service Taxonomy is used in the preparation of funding applications, e.g., area plans. It is also used to record Unmet Needs (e.g., service needs that are not being met) and a Service Plan for a customer on the Uniform Program Registration. The current Service Taxonomy is located on the KDADS Provider Resource Information Website.

State Code – Two-letter USPS codes (abbreviations) used by the United States Postal Service (USPS). A Quick Tool to look up a State Code is found on the USPS Website at

<https://tools.usps.com/go/ZipLookupAction!input.action>. Codes used for Kansas and its bordering states are shown here:

Kansas	Missouri	Nebraska	Oklahoma
KS	MO	NE	OK

Zip Code – Postal codes used by the USPS to designate delivery points, with the basic format consisting of five numeric digits. An extended ZIP+4 has five digits, a hyphen, and four more digits for a more specific location within a given Zip Code. A Quick Tool to look up a Zip Code is found on the USPS Website at <https://tools.usps.com/go/ZipLookupAction!input.action>.

GENERAL REQUIREMENTS

Certain basic tenets of the Older Americans Act mean each local registration system put in place in Kansas shares some common features, including that **a customer**:

- Will register as an individual, not as a household
- Will NOT pay a fee to register for a service
- Will NOT provide proof of identity
- Will NOT provide proof of U.S. citizenship, or state and/or county residency; and
- Will NOT provide income and/or age verification

Local registration systems will NOT provide a pre-printed copy of a last year's registration for the customer to confirm the accuracy of the registration and sign it. Ultimately, it is the customer's responsibility to complete the registration process and Form in its entirety, each time a registration is due.

The registration is not an assessment. Eligibility determination is based primarily on age for the services registered using this Form. Other required data collected on this Form is either needed to create and maintain an electronic record for each customer in KAMIS and/or for the purpose of meeting state and federal reporting requirements.

IMPORTANT – A customer's personal information is only shared in order to provide services to the customer. This is consistent with the Release of Information statement on the Form. Only aggregate information is reported to funding sources -- not customer names, addresses, phone numbers, or social security numbers. Example: number of males between ages 70-80 years that were provided congregate meals.

Finally, each customer receives either a paper or electronic copy of the completed KDADS Form UPR-001 after the UPR Reviewer completes the Completed by Reviewer section at the bottom of the Form.

INSTRUCTIONS FOR REVIEWING THE UPR

The chart shows each **UPR ITEM** (1st Column), a description of the corresponding data **REQUIREMENT** (2nd Column), an **EXAMPLE** (3rd Column) and the **REVIEW CRITERIA** (4th Column) the UPR Reviewer will use.
