

# Peer Support Sub Committee

2023 ANNUAL REPORT

September 20<sup>th</sup> 2023

To Secretary Howard,

As the newest Sub Committee under the GBHSPC, the Peer Support Sub Committee (PSSC) issues its first report and recommendation to you and the GBHSPC.

We, the leadership of the committee, would like to present our Mission and Vision from our Charter. (A full copy of the charter is attached)

We also have one recommendation we believe could enhance positive recovery outcomes in our State Hospitals. The recommendation is based on the concern of having enough coverage to support recovery.

We would also like to present our goals and initiatives for the coming year 2024. We believe our goals are realistic, measurable, and attainable. Working with other Sub Committees would help us to continue to build our own foundation to support a much-needed addition to the GBHSPC. We believe the PSSC can and will enhance other Sub Committees in their initiatives. The PSSC will begin to form and assemble groups to research educational initiatives, ethics review and professionalism for the Peer Support workforce.

Sincerely,

John F Agnew , Chair
