Child’s Progress Report

Using the Progress Report with the Child

Before the meeting

Print the Child’s Progress Report on the next page and take it with you to your meeting with the child.

At the meeting

Once you have checked in with the child and addressed any immediate needs and when you are ready to focus on the treatment plan and the goals, talk with the child about:

- What goal(s) has the child been working on since your last meeting?
- What action step(s) has the child taken or accomplished toward the goal(s)?

With the answers to the two above questions in mind, have the child respond to the two child assessment questions on the “Child’s Progress Report.”

Prior to concluding the meeting

Focus with the child to develop a plan about what they will be doing before you meet again. Note this information in the provided area of the report. The plan should include:

- Goal(s) the child will work on before the next meeting (may be the same goal or a new goal if a goal has been achieved)
- Action steps needed to achieve the goal(s)
- Strengths identified that will help them achieve success
- What supports the child may need from their team to make the plan work
