#### **GLOSSARY**

Agent: any person who has been delegated the authority to obligate or act on behalf of a Provider Entity.

Direct Ownership Interest: the possession of equity in the capital, the stock, or the profits of the disclosing provider entity.

Determination of ownership or control percentages: (a) indirect ownership interest. The amount of indirect ownership interest is determined by multiplying the percentages of ownership in each provider entity. For example, if A owns 10 percent of the stock in a corporation which owns 80 percent of the stock of the disclosing provider entity, A's interest equates to an 8 percent indirect ownership interest in the disclosing provider entity and must be reported. Conversely, if B owns 80 percent of the stock of a corporation which owns 5 percent of the stock of the disclosing provider entity, B's interest equates to a 4 percent indirect ownership interest in the disclosing provider entity and need not be reported. (b) Person with an ownership or control interest. In order to determine percentage of ownership, mortgage, deed of trust, note, or other obligation, the percentage of interest owned in the obligation is multiplied by the percentage of the disclosing provider entity's assets used to secure the obligation. For example, if A owns 10 percent of a note secured by 60 percent of the provider's assets, A's interest in the provider's assets equates to 6 percent and must be reported. Conversely, if B owns 40 percent of a note secured by 10 percent of the provider's assets, B's interest in the provider's assets equates to 4 percent and need not be reported.

Group of practitioners: means two or more health care practitioners who practice their profession at a common location (whether or not they share common facilities, common supporting staff, or common equipment).

Group Providers: a provider who has members affiliated to them.

HCBS Provider: a provider of Home and Community Based Services for Medicaid beneficiaries.

*Indirect Ownership Interest*: an ownership interest in a provider entity that has an ownership interest in the disclosing provider entity. This term includes an ownership interest in any provider entity that has an indirect ownership interest in the disclosing provider entity.

**Managing Employee**: a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operations of an institution, organization, or agency. CMS requires the identification of officers and directors of a provider entity organized as a corporation, without regard to the for-profit or not-for-profit status of that corporation such as president, vice-president, CEO, CFO and board of directors.

Other Disclosing Provider Entity: any other Medicaid disclosing provider entity and any provider entity that does not participate in Medicaid, but is required to disclose certain ownership and control information because of participation in any of the programs established under title V, XV III, or XX of the Act. This includes:

- (a) Any hospital, skilled nursing facility, home health agency, independent clinical laboratory, renal disease facility, rural health clinic, or health maintenance organization that participates in Medicare (title XV III);
- (b) Any Medicare intermediary or carrier; and
- (c) Any provider entity (other than an individual practitioner or group of practitioners) that furnishes, or arranges for the furnishing of,

health-related services for which it claims payment under any plan or program established under title V or title XX of the Act.

#### Ownership or Control Interest: an individual or corporation that—

- (a) Has an ownership interest totaling 5 percent or more in a disclosing provider entity;
- (b) Has an indirect ownership interest equal to 5 percent or more in a disclosing provider entity;
- (c) Has a combination of direct and indirect ownership interests equal to 5 percent or more in a disclosing provider entity;
- (d) Owns an interest of 5 percent or more in any mortgage, deed of trust, note, or other obligation secured by the disclosing entity if that interest equals at least 5 percent of the value of the property or assets of the disclosing provider entity;
- (e) Is an officer or director of a disclosing provider entity that is organized as a corporation; or
- (f) Is a partner in a disclosing provider entity that is organized as a partnership.

**Provider Entity**: an individual or entity who operates as a Medicaid provider and is engaged in the delivery of health care services and is legally authorized to do so by the state in which it delivers the services. For purposes of this Statement, the Provider Entity is the individual or entity identified on this form as the disclosing provider entity.

**Significant Business Transaction**: any business transaction or series of related transactions that, during any one fiscal year, exceeds the lesser of twenty-five thousand (\$25,000) or five percent (5 %) of a Provider Entity's total operating expenses.

**Subcontractor**: (a) an individual, agency, or organization to which a Provider Entity has contracted or delegated some of its management functions or responsibilities of providing medical care to its patients; or (b) an individual, agency, or organization with which a fiscal agent has entered into a contract, agreement, purchase order, or lease to obtain space, supplies, equipment, or services provided under the Medicaid agreement.

**Supplier**: an individual, agency, or organization from which a provider purchases goods or services used in carrying out its responsibilities under Medicaid (e.g., a commercial laundry, manufacturer of hospital beds, or pharmaceutical firm).

Wholly Owned Supplier: a Supplier whose total ownership interest is held by the Provider Entity or by a person(s) or other provider entity with an ownership or control interest in the Provider Entity.
