

Kansas Tobacco Dependence Treatment Provider Directory

Revised: March 27, 2022

This directory was created using the data from a tobacco dependence treatment survey first disseminated in 2020 as a joint effort between the University of Kansas School of Medicine and NAMI Kansas, with support from the Kansas Health Foundation. The survey aimed to determine the capacity of Kansas health care practitioners to provide evidence-based tobacco dependence treatment. The Directory includes providers in many counties throughout Kansas; it is meant to be used by health care providers and other entities for referral for tobacco dependence treatment as well as by patients seeking such treatment.

The Directory is divided into three columns and sorted in alphabetical order by county (left column) and then by organization name (center column). In addition to listing address and phone number information, many organizations also provide the name of a practitioner who specifically handles tobacco dependence treatment within the facility. Tobacco Treatment Specialist (TTS) training is also indicated when applicable. Information on tobacco dependence treatment services, free access when applicable, and accepted insurance is shown in the right column.

Individual counseling, when noted, refers to counseling over three minutes.

“Cessation Meds (Prescribe)” means that pharmacotherapy for tobacco dependence can be prescribed.

“Cessation Meds (Refer)” denotes that pharmacotherapy for tobacco dependence can only be obtained indirectly through referral to a prescriber.

The **Kansas Tobacco Support Groups** web page is another resource for those seeking tobacco dependence treatment or working to refer tobacco users to treatment. This page is located at <http://supportgroupsinkansas.org/support-groups>. To view relevant resources, select “Tobacco Cessation” from the Category pull-down menu and then click “Apply.”
