# Implementation Self-Assessment Kansas Tobacco Guideline for Behavioral Health Care

This self-assessment is a companion to the <u>Kansas Tobacco Guideline For Behavioral Health Care</u>. The self-assessment identifies which Tobacco Guideline steps your program is, or is not, implementing. Completing this assessment will help identify strengths and targets for quality improvement in your program.

Please complete the following 12 items, which correspond to the 12 items in the Tobacco Guideline. Please circle one response for each item. For assistance completing this assessment or implementing the Tobacco Guideline, please contact: **KDADS.BHS@ks.gov.** 

Promoting wellness by integrating evidence-based tobacco treatment into routine clinical practice

1. (	Our program	has assessed tobacco	use status among	the following	percentage of our	r current consumers/clien	ts
------	-------------	----------------------	------------------	---------------	-------------------	---------------------------	----

0 1 2 3 4 5
Not yet implemented Few (10% or less) Some (~25%) About half (~50%) Many (~75%) Nearly all (90%-100%)

**Evidence for level of implementation.** Please describe how this was measured or evaluated. This may include actual data from medical records or staff estimates of the degree of implementation:

2. Our program has provided individual counseling, group counseling, or other behavioral support for tobacco treatment among the following percentage of our current consumers/clients who use tobacco:

0 1 2 3 4 5
Not yet implemented Few (10% or less) Some (~25%) About half (~50%) Many (~75%) Nearly all (90%-100%)

**Evidence for level of implementation.** Please provide details on how this was measured. This may include actual data/descriptions of, what kinds of in-house, external support services clients are referred to:

consumers/clients who us		co treatment medi	cation among the following p	percentage of our	current
0 Not yet implemented	1 Few (10% or less)	2 Some (~25%)	3 About half (~50%)	4 Many (~75%)	5 Nearly all (90%-100%)
_	ed (i.e., medications coul		w this was measured. This may site, they could be prescribed o		±

#### Adopting a tobacco-free environment

## 10a. What best describes where client tobacco use is permitted at your facility?

0	1	2	3	4	5
Don't know/not sure	Tobacco use is permitted in all indoor/outdoor areas	Tobacco use is permitted outdoors and in restricted indoor areas	Tobacco use is permitted outdoors but prohibited in all indoor areas	Tobacco use is permitted in restricted outdoor areas but prohibited in all indoor	Tobacco use is prohibited on all grounds and in all indoor areas
				areas	

**Please provide details.** A copy of the policy is welcome. For example, does your facility have a written policy, or does it simply follow the Kansas Indoor Clean Air Act? Describe any specifics of your policy that differ from the above options. Describe evidence for policy adoption, implementation, and enforcement:

## 10b. What best describes where staff tobacco use is permitted at your facility?

0	1	2	3	4	5
We have no policy	Tobacco use is	Tobacco use is	Tobacco use is	Tobacco use is	Tobacco use is
	permitted in all	permitted outdoors and	permitted outdoors but	permitted in restricted	prohibited on all
	indoor/outdoor areas	in restricted indoor	prohibited in all indoor	outdoor areas but	grounds and in all
		areas	areas	prohibited in all indoor	indoor areas
				areas	

Please provide details. A copy of the policy is welcome. For example, does your facility have a written policy, or does it simply follow the Kansas Indoor Clean Air Act? Describe any specifics of your policy that differ from the above options. Describe evidence for policy adoption, implementation, and enforcement:

11. Our program provides and or supports tobacco treatment to help youth/young adults quit while they're still young:

Not yet implemented Strongly disagree

Disagree

Neither agree nor disagree

Agree

Strongly agree

Evidence for level of implementation: Any examples or data depicting efforts to support youth tobacco cessation are welcome.

12. Our program conducts or supports youth tobacco use prevention efforts:

Not yet implemented

Strongly disagree

Disagree

Neither agree nor disagree Strongly agree Agree

**Evidence for level of implementation:** 

#### Scoring Instructions:

- Add the numbers circled for all items
  - o Lowest score is zero (0)
  - o Highest score is sixty (65)
- A program that scores 0 has implemented no steps in the Kansas Tobacco Guideline
- A program that scores 65 has implemented all steps of the Kansas Tobacco Guideline, to a high degree of quality and with nearly all of their clients
- A program that has implemented some steps, but not others, will score somewhere in between 0-65
- Your program may choose to strengthen implementation of some steps, and/or begin implementing other steps, to increase its score
