## PRICES

# Dog-E-Bones

Dog-E-Bones are produced by the residents and Parsons State Hospital and Training Center located in Parsons, Kansas.

This vocational enclave has been in business for over 20 years—supplying local pets with an all organic treat.

These treats are made of all natural ingredients which are safe for both animals and humans. They contain garlic which is a known deterrent for fleas.

At this time, the biscuits are all bone-shaped for your canine friend. We do have special shapes available that can be requested for pre-orders.
