OMB No. 0930-0222

Expiration Date: 06/30/2022

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0222. Public reporting burden for this collection of information is estimated to average 18 hours per respondent, per year, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Rockville, MD 20857.

### INTRODUCTION

The Annual Synar Report (ASR) format provides the means for states to comply with the reporting provisions of the Public Health Service Act (42 U.S.C. 300x-26) and the Tobacco Regulation for the Substance Abuse Prevention and Treatment Block Grant (SABG) (45 C.F.R. 96.130 (e)).

### How the Synar report helps the Center for Substance Abuse Prevention

In accordance with the tobacco regulations, states are required to provide detailed information on progress made in enforcing youth tobacco access laws (FFY 2021 Compliance Progress) and future plans to ensure compliance with the Synar requirements to reduce youth tobacco access rates (FFY 2022 Intended Use Plan). These data are required by 42 U.S.C. 300x-26 and will be used by the Secretary to evaluate state compliance with the statute. Part of the mission of the Center for Substance Abuse Prevention (CSAP) is to assist states¹ by supporting Synar activities and providing technical assistance helpful in determining the type of enforcement measures and control strategies that are most effective. This information is helpful to CSAP in improving technical assistance resources and expertise on enforcement efforts and tobacco control program support activities, including state Synar program support services, through an enhanced technical assistance program involving conferences and workshops, development of training materials and guidance documents, and onsite technical assistance consultation.

### How the Synar report can help states

The information gathered for the Synar report can help states describe and analyze substate needs for program enhancements. These data can also be used to report to the state legislature and other state and local organizations on progress made to date in enforcing youth tobacco access laws when aggregated statistical data from state Synar reports can demonstrate to the Secretary the national progress in reducing youth tobacco access problems. This information will also provide Congress with a better understanding of state progress in implementing Synar, including state difficulties and successes in enforcing retailer compliance with youth tobacco access laws.

<sup>&</sup>lt;sup>1</sup>The term "state" is used to refer to all the states and territories required to comply with Synar as part of the Substance Abuse Prevention and Treatment Block Grant Program requirements (42 U.S.C. 300x-64 and 45 C.F.R. 96.121).

### Getting assistance in completing the Synar report

If you have questions about programmatic issues, you may call CSAP's Division of State Programs at (240) 276-2550 and ask for your respective State Project Officer, or contact your State Project Officer directly by telephone or email. If you have questions about fiscal or grants management issues, you may call the Grants Management Officer, Office of Financial Resources, Division of Grants Management, at (240) 276-1422.

#### Where and when to submit the Synar report

The ASR must be received by SAMHSA no later than December 31, 2021 and must be submitted in the format specified by these instructions. Use of the approved format will avoid delays in the review and approval process. The chief executive officer (or an authorized designee) of the applicant organization must sign page one of the ASR certifying that the state has complied with all reporting requirements.

The state must upload one copy of the ASR using the online WebBGAS (Block Grant Application System). In addition, the following items must be uploaded to WebBGAS:

- FFY 2022 Synar Survey Results: States that use the Synar Survey Estimation System (SSES) must upload one copy of SSES Tables 1–8 (in Excel) to WebBGAS. Please note that, in the FFY 2022 ASR, SSES will generate Tables 6, 7, and 8, which are based on the optional microdata on product type, retail outlet type, and whether identification was requested. If your state does not submit these optional data, Tables 6, 7, and 8 will be blank. Tables 6, 7, and 8 are generated for the convenience of the state, and states are not required to submit completed versions of Tables 6, 7, or 8. States that do not use SSES must upload one copy of ASR Forms 1, 4, and 5, and Forms 2 and 3, if applicable, (in Excel), as well as a database with the raw inspection data to WebBGAS.
- Synar Inspection Form: States must upload one blank copy of the inspection form used to record the result of each Synar inspection.
- Synar Inspection Protocol: States must upload a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections. This document should be different than the Appendix C attached to the Annual Synar Report.
- A scanned copy of the signed Funding Agreements/Certifications

Each state SSA Director has been emailed a login ID and password to log onto the Synar section of the WebBGAS site.

### FFY 2022: FUNDING AGREEMENTS/CERTIFICATIONS

The following form must be signed by the Chief Executive Officer or an authorized designee and submitted with this application. Documentation authorizing a designee must be attached to the application.

#### PUBLIC HEALTH SERVICES ACT AND SYNAR AMENDMENT

42 U.S.C. 300x-26 requires each state to submit an annual report of its progress in meeting the requirements of the Synar Amendment and its implementing regulation (45 C.F.R. 96.130) to the Secretary of the Department of Health and Human Services. By signing below, the chief executive officer (or an authorized designee) of the applicant organization certifies that the state has complied with these reporting requirements and the certifications as set forth below.

#### SYNAR SURVEY SAMPLING METHODOLOGY

The state certifies that the Synar survey sampling methodology on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2022 is up-to-date and approved by the Center for Substance Abuse Prevention.

#### SYNAR SURVEY INSPECTION PROTOCOL

The state certifies that the Synar Survey Inspection Protocol on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2022 is up-to-date and approved by the Center for Substance Abuse Prevention.

# **SECTION I: FFY 2021 (Compliance Progress)**

## YOUTH ACCESS LAWS, ACTIVITIES, AND ENFORCEMENT

42 U.S.C. 300x-26 requires the states to report information regarding the sale/distribution of tobacco products to individuals under age 18.

1.	access s the last	ndicate any changes or additions to the state tobacco statute(s) relating to youth ince the last reporting year. If any changes were made to the state law(s) since reporting year, please upload a copy of the state law to WebBGAS. (see 42 $800x-26$ ).
	a.	Has there been a change in the minimum sale age for tobacco products?
		☐ Yes ⊠ No
		If Yes, current minimum age: 19 20 21
	b.	Have there been any changes in state law that impact the state's protocol for conducting <i>Synar inspections?</i>
		☐ Yes ⊠ No
		If Yes, indicate change. (Check all that apply.)  Changed to require that law enforcement conduct inspections of tobacco outlets  Changed to make it illegal for youth to possess, purchase or receive tobacco  Changed to require ID to purchase tobacco  Changed definition of tobacco products  Other change(s) (Please describe.)
	c.	Have there been any changes in state law that impact the following?
		Licensing of tobacco vendors
2.		e how the Annual Synar Report (see 45 C.F.R. 96.130(e)) was made public the state prior to submission of the ASR. (Check all that apply.)
		Placed on file for public review
		Posted on a state agency Web site (Please provide exact Web address and the date then the FFY 2022 ASR was posted to this Web address.)
		Web address: http://www.kdads.ks.gov/commissions/behavioral-health/publications-and-reports
		Date published: 12/13/2021
		Notice published in a newspaper or newsletter

☐ Public hearing

		Announced in a news release, a press conference, or discussed in a media interview Distributed for review as part of the SABG application process
		Distributed through the public library system
		Published in an annual register
	$\subseteq$ $Gr$	Other (Please describe.) <u>Distributed for review by the Kansas Synar Advisory</u> oup
3.	Identify	the following agency or agencies (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).
	a.	The state agency(ies) designated by the Governor for oversight of the Synar requirements:
		Kansas Department for Aging and Disability Services
		Has this changed since last year's Annual Synar Report?
		☐ Yes ⊠ No
	<b>b.</b>	The state agency(ies) responsible for conducting random, unannounced Synar inspections:
		Kansas Department of Revenue
		Has this changed since last year's Annual Synar Report?
		☐ Yes ⊠ No
	c.	The state agency(ies) responsible for enforcing youth tobacco access law(s):
		Kansas Department of Revenue and local law enforcement agencies
		Has this changed since last year's Annual Synar Report?
		☐ Yes ⊠ No
4.	•	the following agencies and describe their relationship with the agency ble for the oversight of the Synar requirements.
	a.	Identify the state agency responsible for tobacco prevention activities (the agency that receives the Centers for Disease Control and Prevention's National Tobacco Control Program funding).  The lead Synar agency (Kansas Department of Aging and Disability Services (KDADS) and the Kansas Tobacco Prevention Agency (Kansas Department of Health and Environment) work collaboratively through the Synar Advisory Group established in June 2005.
	<b>b.</b>	Has the responsible agency changed since last year's Annual Synar Report?  ☐ Yes ☑ No
	c.	Describe the coordination and collaboration that occur between the agency responsible for tobacco prevention and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies

	Are the same
	Have a formal written memorandum of agreement
	Have an informal partnership
	Conduct joint planning activities
	Combine resources
	Have other collaborative arrangement(s) (Please describe.)
	☐ No relationship
d.	Does a state agency contract with the Food and Drug Administration's Center for Tobacco Products (FDA/CTP) to enforce the youth access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act?  Yes No (if no, go to Question 5)
e.	If yes, identify the state agency responsible for enforcing the youth access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act (the agency that is under contract to the Food and Drug Administration's Center for Tobacco Products (FDA/CTP)).  Kansas Department of Revenue
f.	Has the responsible agency changed since last year's Annual Synar Report?  ☐ Yes ☑ No
g.	Describe the coordination and collaboration that occur between the agency contracted with the FDA to enforce federal youth tobacco access laws and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies:
	Are the same
	☐ Have a formal written memorandum of agreement
	Have an informal partnership
	Conduct joint planning activities
	Have other collaborative arrangement(s) ( <i>Please describe</i> .)
	☐ No relationship
h.	Does the state use data from the FDA enforcement inspections for Synar survey reporting?  ☐ Yes ☑ No

a. Which one of the following describes tobacco laws carried out in your state		•	ith access
☐ Enforcement is conducted exclusiv	ely by local law	enforcement a	gencies.
☐ Enforcement is conducted exclusiv	ely by state agen	cy(ies).	
Enforcement is conducted by both	local <i>and</i> state ag	gencies.	
access to tobacco laws by LOCAL A AGENCIES (this does not include entobacco access laws). Please fill in thallow for an item, please mark "NA' is unknown, please mark "UNK." The state of	nforcement of lo e number reque ' (not applicable	cal laws or fe sted. If state l ). If a respons	deral you law does se for an

Number of <u>citations issued</u> Number of <u>fines assessed</u>	187 187	187	374 UNK
Number of <u>citations issued</u> Number of <u>fines assessed</u> Number of <u>permits/licenses suspended</u>	187 187 1	187	374 UNK 1

d. Which one of the following best describes the level of enforcement of state youth access to tobacco laws carried out in your state? (Check one category only.)

	Enforcement is conducted only at those outlets randomly selected for the Synar survey.
	Enforcement is conducted only at a subset of outlets not randomly selected for the Synar survey.
	Enforcement is conducted at a combination of outlets randomly selected for the Synar survey and outlets not randomly selected for the Synar survey.
e.	Did every tobacco outlet in the state receive at least one compliance check that included enforcement of the state youth tobacco access law(s) in the last year?
	☐ Yes ⊠ No
f.	What additional activities are conducted in your state to support enforcement and compliance with state youth tobacco access law(s)? (Check all that apply and briefly describe each activity in the text boxes below each activity.)
	Merchant education and/or training

The Kansas Department of Aging and Disability Services and the Kansas Department of Revenue collaboratively established the Cigarette and Tobacco Enforcement (CATE) Team devoted to tobacco compliance and enforcement. The CATE Team is comprised of nine field inspectors, who provide statewide coverage of all 105 Kansas counties, and a staff attorney and an administrative assistant, who assist with the prosecution of the issued citations, including the administrative hearing process which may result in fines and/or suspension or revocation of the license, collect and track some of the relevant data needed to show compliance, and perform other duties that support the field staff and help carry out the mission of CATE and enforcement of the cigarette and tobacco laws.

From October 1, 2020, to September 30, 2021, the CATE Team completed 2,319 retailer inspection visits.

CATE conducts a minimum of one controlled buy enforcement visit at all licensed retail locations that are youth accessible. They also target enforcement revisits in locations that have failed previous enforcement visits from either Synar or CATE. Revisits consist of performing an inspection, including checking for the posting of the State issued license, verifying that the required posting of signage that states that the retail dealer does not sell to persons under 18 years of age. In addition, the following are completed during a revisit: random check of cigarette packages for the State's tax stamp; confirming that the brands sold are listed on the Kansas Attorney General's directories of approved brands permitted to be sold in the state; asking the retail dealer if they retain three years of invoices on the premises; and address any questions that staff may have. CATE inspectors provide education and information to discuss the techniques to verify age when a Kansas driver's license is presented. Sample driver's licenses are shown and discussed with available staff, noting the slogan, "vertical and green, not 18," as an age verification identifier of the Kansas driver's license.

CATE inspectors conduct educational visits as well as inspections. On an education visit, licensees may be given a written warning for any violations found, whereas at the actual inspection, and licensees may be issued a written citation for the violations. The inspector will have an employee or manager, if available, sign the checklist and leave a business card for the licensee to call for further retailer training or questions they may have later.

Inspectors also note that the CATE Team will be periodically performing inspections to curb sales of tobacco to minors by sending an underage youth into the establishment to attempt to purchase cigarettes.
CATE maintains a database with updates from the enforcement activities; provides timely information upon request from KDADS to assist with the monitoring, evaluating, planning, and data collecting of the Synar effort.
☐ Incentives for merchants who are in compliance (e.g., nonenforcement compliance checks in which compliant retailers are given positive reinforcement and noncompliant retailers are warned about youth access laws)
Community education regarding youth access laws
☐ Media use to publicize compliance inspection results
Community mobilization to increase support for retailer compliance with youth access laws
Synar protocol and data collection training
The lead Cigarette Tobacco Manager together with the lead Synar analyst contracted by KDADS, presented a Synar protocol refresher course to all CATE inspectors in the state on May 20, 2020. The purpose of the training was to ensure that all inspectors conducting the Synar inspections were fully informed of proper protocol and procedures.
Supplemental Synar Analysis Report
After the Synar cycle each year, a report is developed to further analyze violations. A 'hot

After the Synar cycle each year, a report is developed to further analyze violations. A 'hot spot' map is created to help determine areas where additional education visits might be needed. The report also analyzes violations in relation to clerk and UCI gender and age whether age was asked, and ID was checked.

### SYNAR SURVEY METHODS AND RESULTS

The following questions pertain to the survey methodology and results of the Synar survey used by the state to meet the requirements of the Synar Regulation in FFY 2021 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).

).	Has the sampling methodology changed from the previous year?
	☐ Yes ⊠ No
	The state is required to have an approved up-to-date description of the Synar sampling methodology on file with CSAP. Please submit a copy of your Synar Survey Sampling Methodology (Appendix B). If the sampling methodology changed from the previous reporting year, these changes must be reflected in the methodology submitted.
	a. If yes, describe how and when this change was communicated to SAMHSA
7.	Please answer the following questions regarding the state's annual random, unannounced inspections of tobacco outlets (see 45 C.F.R. $96.130(d)(2)$ ).
	a. Did the state use the optional Synar Survey Estimation System (SSES) to analyze the Synar survey data?
	Yes □ No
	If <b>Yes</b> , upload a copy of SSES tables 1–8 (in Excel) to WebBGAS. Then go to Question 8. If <b>No</b> , continue to Question 7b.
	b. Report the weighted and unweighted Retailer Violation Rate (RVR) estimates, the standard error, accuracy rate (number of eligible outlets divided by the total number of sampled outlets), and completion rate (number of eligible outlets inspected divided by the total number of eligible outlets).
	Unweighted RVR
	Weighted RVR
	Standard error (s.e.) of the (weighted) RVR
	Fill in the blanks to calculate the $\frac{\text{right limit}}{\text{limit}}$ of the right-sided 95% confidence interval.
	$ \begin{array}{cccccccccccccccccccccccccccccccccccc$
	Accuracy rate
	Completion rate

c.	<b>Fill out Form 1 in Appendix A (Forms 1–5).</b> (Required regardless design.)	of the sample
d.	How were the (weighted) RVR estimate and its standard error of (Check the one that applies.)	btained?
	☐ Form 2 (Optional) in Appendix A (Forms 1–5) (Attach completed	
	Other (Please specify. Provide formulas and calculations or attact the program code and output with description of all variable nan	•
e.	If stratification was used, did any strata in the sample contain on or cluster this year?	lly one outlet
	☐ Yes ☐ No ☐ No stratification	
	If Yes, explain how this situation was dealt with in variance estimation	on.
f.	Was a cluster sample design used?	
	☐ Yes ☐ No	
	If <b>Yes</b> , fill out and attach Form 3 in Appendix A (Forms 1–5), and an following question.	swer the
	If No, go to Question 7g.	
	Were any certainty primary sampling units selected this year?	
	☐ Yes ☐ No	
	If Yes, explain how the certainty clusters were dealt with in variance	estimation.
g.	Report the following outlet sample sizes for the Synar survey.	
		Sample Size
	Effective sample size (sample size needed to meet the SAMHSA precision requirement assuming simple random sampling)	
	<b>Target sample size</b> (the product of the effective sample size and the design effect)	
	Original sample size (inflated sample size of the target sample to counter the sample attrition due to ineligibility and noncompletion)	
	Eligible sample size (number of outlets found to be eligible in the sample)	
	<b>Final sample size</b> (number of eligible outlets in the sample for which an inspection was completed)	

h. Fill out Form 4 in Appendix A (Forms 1–5).

8.	Did the	state's Synar survey use a list frame?
	<b>⊠</b> Yes	□ No
	If Yes, an	nswer the following questions about its coverage.
	a.	The calendar year of the latest Sampling frame coverage study: 2017
	b.	Percent coverage from the latest Sampling frame coverage study: 99.3%
	c.	Was a new study conducted in this reporting period?
		□Yes ⊠ No
		If <b>Yes</b> , please complete Appendix D (List Sampling Frame Coverage Study) and submit it with the Annual Synar Report.
	d.	The calendar year of the next coverage study planned: 2022
9.	Has the	Synar survey inspection protocol changed from the previous year?
	☐ Yes	⊠ No
	protocol (Append be reflec	e is required to have an approved up-to-date description of the Synar inspection on file with CSAP. Please submit a copy of your Synar Survey Inspection Protocol ix C). If the inspection protocol changed from the previous year, these changes must ted in the protocol submitted.  If Yes, describe how and when this change was communicated to SAMHSA
	b.	Provide the inspection period: From <u>06/01/21</u> to <u>09/30/21</u> MM/DD/YY MM/DD/YY
	c.	Provide the number of youth inspectors used in the current inspection year:
		<u>21</u>
		NOTE: If the state uses SSES, please ensure that the number reported in 9b matches that reported in SSES Table 4 or explain any difference.
	d.	Fill out and attach Form 5 in Appendix A (Forms 1–5). (Not required if the state used SSES to analyze the Synar survey data.)

# **SECTION II: FFY 2022 (Intended Use):**

Public Law 42 U.S.C. 300x-26 of the Public Health Service Act and 45 C.F.R. 96.130 (e) (4, 5) require that the states provide information on future plans to ensure compliance with the Synar requirements to reduce youth tobacco access.

1. In the upcoming year, does the state anticipate any changes in:

	Synar sampling methodology
	Synar inspection protocol $\square$ Yes $\boxtimes$ No
	If changes are made in either the Synar sampling methodology or the Synar inspection protocol, the state is required to obtain approval from CSAP prior to implementation of the change and file an updated Synar Survey Sampling Methodology (Appendix B) or an updated Synar Survey Inspection Protocol (Appendix C), as appropriate.
2.	Please describe the state's plans to maintain and/or reduce the target rate for Synar inspections to be completed in FFY 2022. Include a brief description of plans for law enforcement efforts to enforce youth tobacco access laws, activities that support law enforcement efforts to enforce youth tobacco access laws, and any anticipated changes in youth tobacco access legislation or regulation in the state.
	The Kansas Department for Aging and Disability Services will work collaboratively with the Kansas Department of Revenue to continue the efforts of the Cigarette and Tobacco Enforcement Team. Activities will encompass year-round checks that include educational visits, enforcement visits and controlled buys.
	The Synar Advisory Group (SAG) composed of state agencies, tobacco-related grantees, Tobacco Free Kansas and other stakeholders will meet biannually at a minimum to review the Annual Synar Report to review the data from the CATE inspections and make additional education visits as needed. Members of the SAG will also contribute to a comprehensive State tobacco prevention plan. This effort will be undertaken specifically by the Kansas Department of Health and Environment and the Tobacco Free Kansas Coalition.
	The SAG will continue conversations regarding the transition needed to enforce Tobacco 21 laws regarding underage access to reduce the illegal sale of tobacco products to individuals under the age of 21 and will work with our state agencies to support the needed changes to the State law to align with the Federal Tobacco 21 law.
3.	Describe any challenges the state faces in complying with the Synar regulation. (Check
	all that apply and describe each challenge in the text box below it.)
	∑ Limited resources for law enforcement of youth access laws
	Resources continue to be limited due to local and state level staffing issues particularly for coverage in rural areas. In addition, state revenues continue to decline as a result of the economy and budget cuts.
	Limited resources for activities to support enforcement and compliance with youth tobacco access laws

	Limitations in the state youth tobacco access laws				
	Limited public support for enforcement of youth tobacco access laws				
	Limitations on completeness/accuracy of list of tobacco outlets				
	Limited expertise in survey methodology				
	Laws/regulations limiting the use of minors in tobacco inspections				
	Kansas law prohibits minors from attempting to purchase tobacco. However, there are statutory exceptions provided in KSA 79-3394. The specific language of this statute is:				
	No persons shall engage or direct a minor to violate any provision of this act for purposes of determining compliance with provisions of this act of the Kansas consumer protection act unless such persons has procured the written consent of a parent or guardian of the minor to so engage or direct the minor and such person is:				
	<ul> <li>a) An officer having authority to enforce the provisions of this act;</li> <li>b) An authorized representative of the attorney general, a county attorney or a district attorney; or</li> <li>c) An authorized representative of a business acting pursuant to a self-compliance program designed to increase compliance with the provisions of this act.</li> </ul>				
	History: L.1996, ch.214 17: July 1.				
$\boxtimes$	Difficulties recruiting youth inspectors				
	Youth are recruited from a variety of groups including SADD, ROTC, churches, Boy Scouts, and local law enforcement referrals. Due to the lack of set hours, dates of inspections, and busy or conflicting schedules of youth, recruitment and continued employment of the Underage Cooperating Individuals (UCIs) is challenging.				
	Recruitment was particularly challenging this year. When inspectors were asked why they thought recruitment was difficult, several answers were given. Some suggested it was due to low pay, lack of interest, or because it was summertime. Others suggested that minors or their parents don't want them out in stores, possibly due to COVID-19 concerns. Like much of the rest of the nation, businesses are struggling to recruit people to work.				
and	Issues regarding the balance of inspections conducted by youth inspectors aged 15 d under				

	Issues regarding the balance of inspections conducted by one gender of youth pectors
	Geographic, demographic, and logistical considerations in conducting inspections
	Kansas is 400 miles long and 210 miles wide. These 82,823 square miles constitute 105 counties that, for the purposes of Synar sampling, are divided into four strata based on natural pupation breakpoints from the 6-17-year-old population of the 2000 U.S. Census. Most counties (69) reside in 'sparse rural' areas. CATE visits to all licensed retail locations per year is challenging given the demographic and logistical considerations in Kansas.
$\boxtimes$	Cultural factors (e.g., language barriers, young people purchasing for their elders)
	Language barriers exist within ethnic and cultural groups. Due to multiple dialects, the state is challenged to provide resources and material that are culturally appropriate and intelligent.
	Issues regarding sources of tobacco under tribal jurisdiction
	Other challenges (Please list.)
	COVID-19 was still of concern in the summer and fall of 2021 particularly with the new Delta variant. During inspections UCIs could wear masks and/or gloves if desired, but unlike 2020, they were not required to do so.

### APPENDIES B & C: FORMS

#### Instructions

Appendix B (Sampling Design) and Appendix C (Inspection Protocol) are to reflect the state's CSAP-approved sampling design and inspection protocol. These appendixes, therefore, should generally describe the design and protocol and, with the exception of Question #10 of Appendix B, are not to be modified with year-specific information. Please note that any changes to either appendix must receive CSAP's advance, written approval. To facilitate the state's completion of this section, simply cut and paste the previously approved sampling design (Appendix B) and inspection protocol (Appendix C) and respond to Question #10 of Appendix B to provide the requested information about sample size calculations for the Synar survey conducted in FFY 2021.

# APPENDIX B: SYNAR SURVEY SAMPLING METHODOLOGY

			: Kansas 2022							
1. What type of sai	mpling f	rame is used?

☐ State lay	w bans v	ending machines.								

☐ State law bans vending machines from locations accessible to youth.

ref	ban." Stratum 3 has 28 counties considered to be "medium-sized rural" and the majority of unties (69) reside in stratum 4 'sparse rural' areas.  b. Is clustering used within the stratified sample?
ref	ban." Stratum 3 has 28 counties considered to be "medium-sized rural" and the majority of
-	nectione content demontantics in the state. The SIV colimbe in strailim / are considered "Allasi I
	pulation breakpoints from the 6-17-year-old population of the U.S. Census data to accurately flect the current demographics in the state. The six counties in stratum 2 are considered "quasi-
co	unties that for purposes of Synar sampling are divided into four strata based on natural
Ka	ansas is about 400 miles long and 210 miles wide. These 82,823 square miles constitute 105
	a. Provide a full description of the strata that are created.
7.	Provide the following information about stratification.
	g brangeamen is used o mer, use go to guestion 3.17
6.	<b>Describe the systematic sampling methods.</b> (After completing Question 6, go to Question 7 if stratification is used. Otherwise go to Question 9.)
	Other (Please describe and go to Question 9.)
	<ul><li>☐ Single-stage cluster sample (Go to Question 7.)</li><li>☐ Multistage cluster sample (Go to Question 7.)</li></ul>
	Systematic random sample (Go to Question 6.)
	Simple random sample (Go to Question 7.)
	Stratified sample:
	☐ Multistage cluster sample (Go to Question 8.)
	Single-stage cluster sample (Go to Question 8.)
	Systematic random sample (Go to Question 6.)
	Simple random sample (Go to Question 9.)
	Unstratified statewide sample:
	Census (STOP HERE: Appendix B is complete.)
5.	Which category below best describes the sample design? (Check only one.)
	Other reasons ( <i>Please describe</i> .)
	possible that no vending machines were sampled, however they are included in the sampling frame and have a non-zero probability of selection
	☑ Vending machines are sampled together with over the counter outlets, so it is
	☐ Vending machines are sampled separately to ensure vending machines are included in the sample
	If <b>Yes</b> , please indicate how likely it is that vending machines will be sampled.
	requirements of the Family Smoking Prevention and Tobacco Control Act.  Other ( <i>Please describe.</i> )
	requirements of the Family Smoking Prevention and Tobacco Control Act

8. Provide the following information about clustering.

a.	Provide a full description of how clusters are formed. (If multistage clusters are
	used, give definitions of clusters at each stage.)

b.	Specify the sampling method (simple random, systematic, or probability proportional to size sampling) for each stage of sampling and describe how the method(s) is (are) implemented.

9. Provide the following information about determining the Synar Sample.

a. Was the Synar Survey Estimation System (SSES) used to calculate the sample size?

 $\boxtimes$  **Yes** (Respond to part b.)

**No** (Respond to part c and Question 10c.)

b. SSES Sample Size Calculator used?

State Level (Respond to Question 10a.)

Stratum Level (Respond to Question 10a and 10b.)

c. Provide the formulas for determining the effective, target, and original outlet sample sizes.

The SSES sample size calculator is used to estimate the sample size. To ensure the study meets SAMHSA's precision requirement, a safety margin of 25% was applied. The formula for calculating the effective sample size,  $n_e$ , is based on page 35 (formula S3.4) of the Sample Design Guidance. It is written as:

$$n_e = \frac{1}{\left(\frac{(0.0182)^2}{P(1-P)} + \frac{1}{N}\right)}$$

where P is the expected Retail Violation Rate (RVR) (for which the previous year's RVR can be used), 0.0182 is the standard error of the estimate for 3% margin of error for one-sided 95% confidence interval, and N is the outlet population (frame) size. The target sample size should be derived as the effective sample size multiplied by the design effect ( $n_t = dn_e$ ).

The original sample size is determined by inflating the target sample size by the expected eligibility rate  $(r_l)$  and the expected completion rate  $(r_c)$ . The original sample size can be written as:

$$n_o = \frac{n_t}{r_l r_c}$$

Where  $r_l$  = the eligibility rate from the previous year's survey and  $r_c$  = the completion rate from the previous year's survey.

- 10. Provide the following information about sample size calculations for the Synar survey conducted in FFY 2021.
  - a. If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the state level sample size, please provide the following information:

### **Inputs for Effective Sample Size:**

RVR: 13.0% (Fixed RVR based on 2018 corrective action plan)

Frame Size: 2,426

### **Input for Target Sample Size:**

Design Effect: 0.8

### **Inputs for Original Sample Size:**

Safety Margin: 25%

Accuracy (Eligibility) Rate: 94.8%

Completion Rate: 95.9%

b. If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the stratum level sample sizes, please provide the stratum level information:

		Stratum	Cost	Stratum Sample
Stratum	Stratum	RVR	weight of	
ID	size	2021	inspections	[Optimum]
1	677	8.2	1	86
2	487	15.1	1	81
3	724	1.9	4	23
4	538	6.8	6	26
				216

c. If the state does not use the sample size formulas embedded in the SSES Sample Size Calculator, please provide all inputs required to calculate the effective, target, and original sample sizes as indicated in Question 9.

# APPENDIX C: SYNAR SURVEY INSPECTION PROTOCOL SUMMARY

Sta	ate: _]	Kansas
FI	<b>FY:</b> 2	2022
Note: Upload to WebBGAS a copy of the Synar inspection form Inspection Form" and a copy of the protocol used to train inspections the results of the Synar inspections under the heading	ction	teams on conducting and
1. How does the state Synar survey protocol address the follo	wing	?
a. Consummated buy attempts?		
□ Required		
Permitted under specified circumstances (Describ	e:	)
☐ Not permitted		
b. Youth inspectors to carry ID?		
⊠ Required		
Permitted under specified circumstances (Describ	oe:	)
☐ Not permitted		
c. Adult inspectors to enter the outlet?		
☐ Required		
Permitted under specified circumstances (Describ		<u> </u>
an establishment if the Underage Cooperating Individual establishment longer than what would be necessary to co		
example, a grocery store or department store when the cl	-	
☐ Not permitted		
d. Youth inspectors to be compensated?		
⊠ Required		
Permitted under specified circumstances (Describ	oe:	)
☐ Not permitted		
2. Identify the agency(ies) or entity(ies) that actually conduct Synar inspections of tobacco outlets. (Check all that apply.)		andom, unannounced
☐ Law enforcement agency(ies)		
State or local government agency(ies) other than law	enfoi	rcement
Private contractor(s)		
Other		

3.	Are Synar inspections combined with law enforcement efforts (i.e., do law enforcement representatives issue warnings or citations to retailers found in violation of the law at the time of the inspection?)?
4.	Describe the type of tobacco products that are requested during Synar inspections.
	a. What type of tobacco products are requested during the inspection?
	<ul> <li>☐ Cigarettes</li> <li>☐ Small Cigars</li> <li>☐ Cigarillos</li> <li>☐ Smokeless Tobacco</li> <li>☐ Electronic Cigarettes/Electronic Nicotine Delivery Systems (ENDS)</li> <li>☐ Other</li> <li>b. Describe the protocol for identifying what types of products and what brands of products are requested during an inspection.</li> </ul>
	Synar inspections only include cigarettes. Brand requested during an inspection is based on the area where the inspection is taking place. Type and brand of products requested during CATE inspections is dependent on the Investigator.

5a. Describe the methods used to recruit, select, and train adult supervisors.

All adults working with minors are KDOR commissioned inspectors. The inspectors are recruited through the State Department of Administration website and other state and local resources. They are selected through the standard interview process. All inspectors have a background check completed as part of the hiring process. Training for the inspectors is a 1-2-month process and includes training at the KDOR office for a week followed by a week of on-site field supervision. Additionally, inspectors spend at least two weeks with other inspectors with supervisory follow-up in specific areas as needed.

5b. Describe the methods used to recruit, select, and train youth inspectors.

Youth are recruited from various sources throughout communities in the state, such as local substance abuse coalitions, health departments, schools and home-schooled youth. They are contacted by KDOR to schedule a meeting with them and their parents to explain the process, expectations and safeguards for the minors. If they are still interested, a background check is conducted to ensure that the youth do not have criminal record. Community members (law enforcement, teacher, etc.) are interviewed to ensure the youth are of good character. Applications are reviewed and approved by inspectors and a panel of KDOR administration. KDOR inspectors train all youth on inspection protocol and safety issues.

6.		re specific legal or procedural requirements instituted by the state to address e of youth inspectors' immunity when conducting inspections?
	a.	Legal
		⊠ Yes □ No
		(If <b>Yes</b> , please describe.)
		Kansas State law provides for the immunity of minors participating in the tobacco compliance checks and alcohol sales.
	b.	Procedural
		☐ Yes ⊠ No
		(If <b>Yes</b> , please describe.)
7.		re specific legal or procedural requirements instituted by the state to address e of the safety of youth inspectors during all aspects of the Synar inspection?
	a.	Legal
		☐ Yes ⊠ No
		(If <b>Yes</b> , please describe.)
	b.	Procedural
		∑ Yes
		(If Yes, please describe.)
		If either the minor or the inspector feels that the outlet is unsafe to enter at the time of inspection, the inspection is not attempted. Inspectors observe the minor during the transaction from either within or outside the establishment to ensure the safety of the minor and to monitor the transaction. In addition, some inspectors team up with another inspector in order to have an inspector present with the UCI at all times to ensure their safety and protection
8.	inspecti	re any other legal or procedural requirements the state has regarding how ons are to be conducted (e.g., age of youth inspector, time of inspections, that must occur)?
	a.	Legal
		(If <b>Yes</b> , please describe.)

In accordance with Department of Labor, Child Labor provisions of the FSLA, youth inspectors must be at least 16 years of age. In addition, youth inspectors are not older than 17 years 6 months.

b.	Procedural					
	⊠ Yes □ No					
	(If <b>Yes</b> , please describe.)					
	During inspections, UCIs are instructed to answer questions honestly; however, UCIs are instructed to respond "No" if asked the question "Are you working with law enforcement?"
