General Instructions

Purpose The electronic Adverse Incident Reporting (AIR) form is used to report adverse/critical incidents involving individuals receiving services from agencies licensed or funded by the Kansas Department for Aging and Disability Services.

- System Requirements and Browser Settings**
- Internet Connection
 - Internet Browser:
 - Microsoft Internet Explorer 11 or newer – Recommended, and the only browser that KDADS supports for Web Applications.
 - Other browsers may be used with the understanding that KDADS cannot troubleshoot any issues that may arise using KDADS Web Applications with another browser.
-

Contact Persons

| Issue | Contact Person |
|--|---|
| Application How To Questions and Security Access | KDADS Help Desk Phone: <i>(785) 296-4987 or (800) 432-3535</i> E-Mail: <i>KDADS.helpdesk@ks.gov</i> |
| Questions about AIR Policies and Guidelines. | Phone: <i>(785) 296-4986 or (800) 432-3535</i> <i>Ask for the program manager for the waiver or service that the affected client is associated with.</i> |

Important The required fields referenced in this chapter refer to system-required fields. These fields are required in order for the form to be saved. The information that is required due to policy may be different from those that are system required.

All information saved in any KDADS web application or web form is encrypted and secure.

Accessing the Application

How To

Follow the steps in the table below to access a blank AIR form from the KDADS public website.

| Step | Action | Result |
|---|---|---|
| 1. | From an internet browser, go to the KDADS public website at www.kdads.ks.gov . | The <i>Kansas Department for Aging and Disability Services</i> public website displays. |
|  | | |
| 2. | Click on the Adverse Incident Reporting (AIR) link located under 'QUICK LINKS' on the right side of the home page. | A blank Adverse Incident Reporting form displays. |

Creating / Saving the Adverse Incident Reporting (AIR) Form

Introduction

All required fields must be completed before the AIR form can be successfully saved. The initial creation (saving) of the form is done via the 'Create Report' button. When the completed form is submitted to KDADS, the reporting process is complete.

Sample Blank form:

The screenshot displays the 'Adverse Incident Reporting' form. At the top left is the Kansas Department for Aging and Disability Services logo. The form title is 'Adverse Incident Reporting'. Below the title is a section for 'Adverse Incident Reporting Purpose' and a 'Notice' section with links to 'Hotline Phone Numbers and Information', 'Are you a Mandated Reporter?', and 'User Manuals'. A 'Create Report' button is visible in the top right. The form is divided into several sections: 'Person Reporting Incident Information' (including fields for reporter details and report date), 'Individual Involved in Incident Information' (including fields for individual details and incident date), 'Incident Information' (including a list of incident types with checkboxes), 'Adverse Incident(s)' (including a list of incident types with checkboxes and a text area for explanation), and 'Incident Details' (including a text area for a summary of facts). A 'Create Report' button is located at the bottom left of the form.

Creating / Saving the AIR Form, continued

How To

Follow the steps in the table below to create a new Adverse Incident Reporting form.

| Step | Action | Result |
|------|---|--|
| 1. | Click on the AIR form link as described in the previous steps. | A blank AIR form displays. |
| 2. | Enter the information for the incident being reported. | All required fields must be completed before the form can be saved. |
| 3. | Click on the Create Report button (located at the top and the bottom of the form.) | <ul style="list-style-type: none"> The report is created, and the data is saved. The Create Report button no longer displays. Apply Changes button displays. Submit to KDADS button displays. |

Note: Validation errors will display for any missing required information, and the report will *not* be saved. Enter the missing required fields and click the Create Report button again.

Before the form is created/saved:

 **Adverse Incident Reporting**

Adverse Incident Reporting Purpose
Effective incident management is essential to assuring the health and welfare of KDADS program participants. The Adverse Incident Reporting (AIR) System focuses on the identification and follow-up to critical events or incidents **that bring harm, or create the potential for harm**, to a KDADS program participant. AIR focuses on critical events or incidents that the state itself deems as sufficiently serious to warrant near-term review and follow-up by an appropriate authority.

Notice

- Hotline Phone Numbers and Information
- Are you a Mandated Reporter?
- Once the report is created, a "Upload Supporting Document(s)" Region will display to securely upload any documents related to the Incident.
- The Report needs to be completed and submitted to KDADS **prior** to closing the window.
- If you wish to retain a copy, print this form by using the "Print AIR Report" button provided below.
- User Manuals:
 - [AIR Instructions for Providers](#)
 - [Quick Reference for Submitting AIR Reports v2](#)

Create Report

Report Status: WORK IN PROGRESS

Submit to KDADS

Person Reporting Incident Information

| Step | Action | Result |
|------|--|--|
| 4. | A new region displays to the right of the AIR form once it has been created. | Upload Supporting Document(s) displays. |
| 5. | Additions and/or changes to the report can be made as necessary. | |
| 6. | Click on the Apply Changes button to save any additions/changes made. | Additions/changes are saved. |

Form Fields

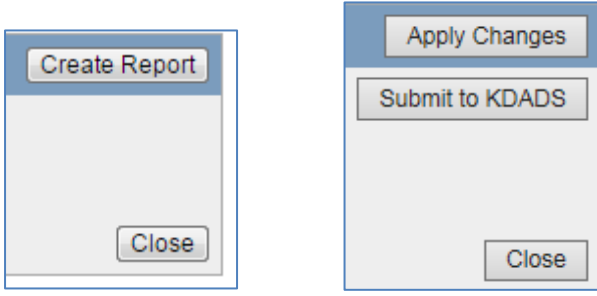

Refer to the next chapter, *Field Descriptions and Requirements* if there are any questions about any of the fields in the AIR form.

Uploading Files

Refer to the chapter on *Uploading Supporting Documentation to an AIR Report* for details on how to attach a file to a saved AIR form.

Field Descriptions and Requirements

Field Requirements The table below lists all the report fields and their purpose. All fields marked with a red asterisk (*) are required. Fields that are conditionally required will be also checked for a valid entry when the form is saved.

| Field or Button | Action / Purpose |
|---|--|
| Create Report | Creates the report once all required fields are entered. The button disappears after the report is successfully created, and is replaced by the Apply Changes button. |
| Apply Changes | Button displays after the report is successfully created. Saves any subsequent changes to the initial data entered. |
| Submit to KDADS | Button displays after the report is successfully created. When data entry is complete, clicking on this button will submit the report to KDADS, and the report changes to a read-only status. |
| Close | Closes the Adverse Incident Reporting window or tab. Once the window/tab is closed, the report cannot be accessed again by the Reporter. |
|  | |
| <i>Person Reporting Incident Information Region</i> | |
| Reporter to Remain Anonymous | If the reporter elects to remain anonymous then no reporter fields will be displayed on any of the Report Detail pages or reports. However, the information will be available if the investigator is associated with the State of Kansas agency. |
| All fields | Contains the Reporter information and the Provider to which the reporting person is associated. |
| Report Date | Date the AIR form is filled out. (Defaults to the current date.) |
| Report Submitted Date | Date the AIR form was submitted to KDADS. (Defaults to the current date.) |

Submitting a Completed AIR Report to KDADS

Introduction

Submitting a completed Adverse Incident report to KDADS adds it to the Adverse Incident Listing in the *Adverse Incident Reporting (AIR)* web application. Only KDADS staff with authenticated web application user accounts have access to the AIR web application, and only those users assigned to the group matching the specified Program Type indicated in each submitted incident have access to those incidents.

Individual Involved in Incident Information

* First Name: * Last Name:

* Date of Birth: * Gender: FEMALE MALE

* KanCare Member: YES NO UNKNOWN Medicaid ID:

* Program Type: **PSYCHIATRIC RESIDENTIAL TREATMENT FACILITY** (highlighted)

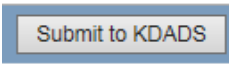

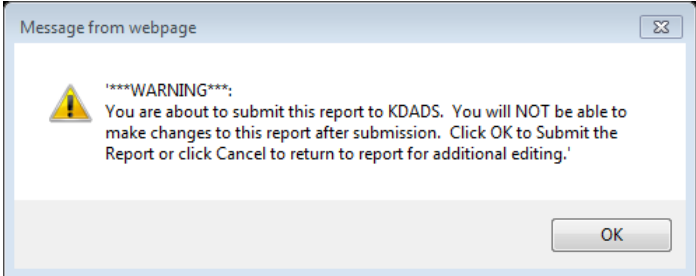

* Service Received During Incident:

Kamis Person Number: SAPT Block Grant ID:

How To

Follow the steps in the table below to submit a completed AIR report to KDADS.

Note: Supporting Documentation (covered in the next chapter) can be uploaded to an AIR report before or after the form is submitted to KDADS.

| Step | Action | Result |
|--|---|---|
| 1. | From the completed AIR report page, click on the Submit to KDADS button.  Note: Either button, located at the top and the bottom of the page, can be used. | A warning message displays. The form is saved, and all fields are read only. An e-mail is forwarded to the appropriate KDADS staff for review. |
| 2. | <i>Read the message before continuing!</i> |  |
| 3. | Click on the OK button to submit the report and make it read-only. OR Click on the Cancel button to return to the report. | OK = Report submitted to KDADS. No further changes can be made.* Cancel = Return to report to make changes. Report is <i>not</i> submitted to KDADS. |
| *While no additional changes can be made to an AIR report once it is submitted to KDADS, supporting documents <i>can</i> still be uploaded. See the next chapter for instructions. | | |

Uploading Supporting Documentation to an AIR Report

Introduction

If there is supporting documentation related to the adverse incident being reported, an electronic version of the document can be uploaded to the AIR form. AIR uses the same Attach/Upload File utility that is used by many other KDADS web applications for this purpose.

The Attach / Upload File utility is accessible after the incident has been created, and before the incident page is closed.

Only KDADS staff that have authorization to access the associated AIR report will have access to any uploaded documents attached to the incident.

Sample Blank Form

To Attach / Upload File:

1 Steps to Upload a File:

1. Click on the "Browse..." button.
2. Browse to the file location.
3. Click on the file and then the "Open" button.
 - * Uploaded source file name can not contain any special characters. (except dash, underscore, slash, or period)
 - * **Uploaded source file name can not duplicate ANY Uploaded source file name in the system**
4. Type a unique name in the "Document" field.
 - * **The "Document" field name can not duplicate ANY "Document" field name in the system**
 - * Do not upload ".docx" or ".xlsx" files.
 - (Save ".docx"/".xlsx" files as PDFs then upload the PDF file.)
5. Click the "Upload or Delete File" button.

6 To Delete a File:

1. Only the person who uploaded the file can delete the file.
2. Click on the checkbox next to the file to be deleted.
3. Click on the "Upload or Delete File" button.

Source file

File size limited to 100mb

Document (short descriptive name):

Uploaded Files

| Region | Purpose |
|--|--|
| 1 Steps to Upload a File: | Instructions for the upload process |
| 2 Source file / Browse... | The source file path and file name appear here after browsing to/selecting the file. This file name must be unique from any other file that may have been uploaded into our system from this application or any other web application. |
| 3 Document (short descriptive name) | A description that provides a simpler name for the file (required) This description name must be unique from any other file that may have been uploaded into our system from this application or any other web application. |
| 4 Upload or Delete File button | Completes the Upload process and displays a link to the file in a table list OR Deletes the selected/checked file from the table list |
| 5 Uploaded Files | Uploaded files will display in a table |
| 6 To Delete a File: | Instructions for Deleting an uploaded file |

Continued on next page

Uploading Supporting Documentation to an AIR Report, continued

Source File Requirements

Source File Name: There are specific rules that must be followed in the naming of the source file that will be uploaded. If necessary, rename the source file before you attempt to upload it. The source file name can contain *only* the following characters:

- Alpha-numeric characters (A-Z and 0-9)
- The following special characters: dash (-), underscore (_), slash (/), and period (.)

Source File Size: The source file (the file you are uploading) has a maximum file size of 100MB. To conserve KDADS file server space, we request that the source files be saved in a way to reduce the file size as much as possible. For example, if you are scanning a hard copy of a file, make sure your scanner is not using too high of a resolution (200-300 dpi should be sufficient.) Be aware of the size of picture files that are uploaded and resize/compress them if possible. If uploading a PDF file and you have Acrobat Pro, there are optimizing features that can reduce the size of the file.

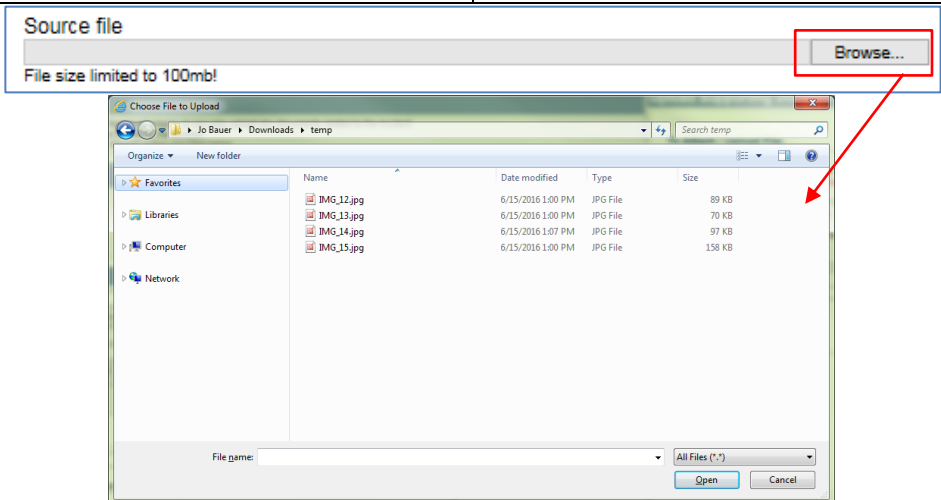

Source File Type: Most file types are compatible with the Attach/Upload File utility. However, be aware that files that are application-specific may not be accessible if the user opening the file does not have that application installed on their computer. For this reason, we recommend the following file types, as they are accessible via multiple image-viewing applications or PDF readers that are common to many business applications:

- PDF (current Microsoft Office applications have a built-in 'save as PDF' option)
- JPG/JPEG (most scanners will scan images to this format)
- BMP (most scanners will scan images to this format. Preferred after JPG/JPEG, as BMP files tend to be larger in size than JPG/JPEG)

Note: Word (.docx) and Excel (.xlsx) files are not compatible with the Attach/Upload File utility. Make sure to save these file types as PDF files before uploading.

How To

Follow the steps in the table below to upload a file to a saved Adverse Incident Report.

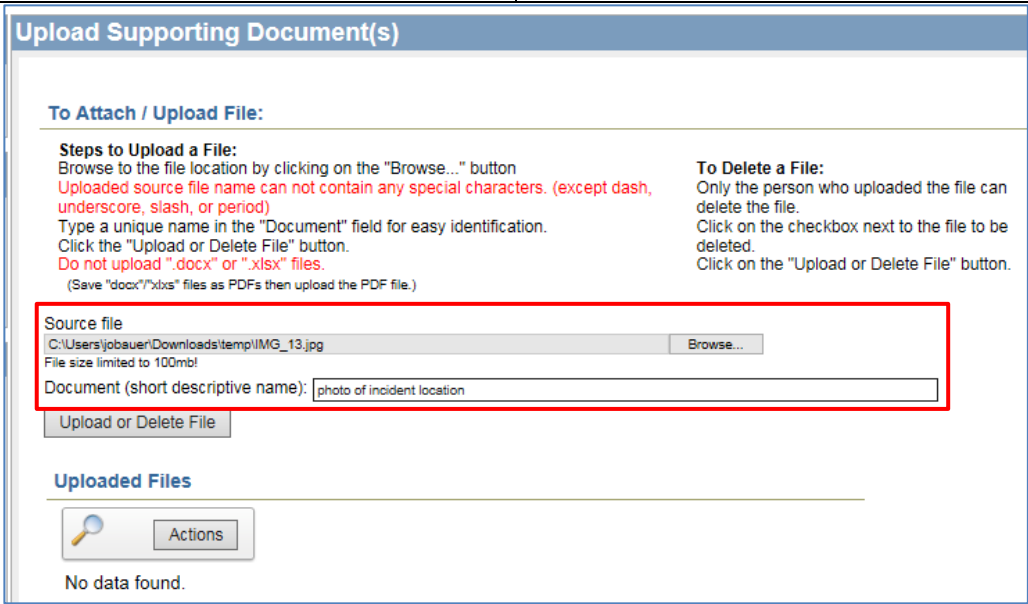

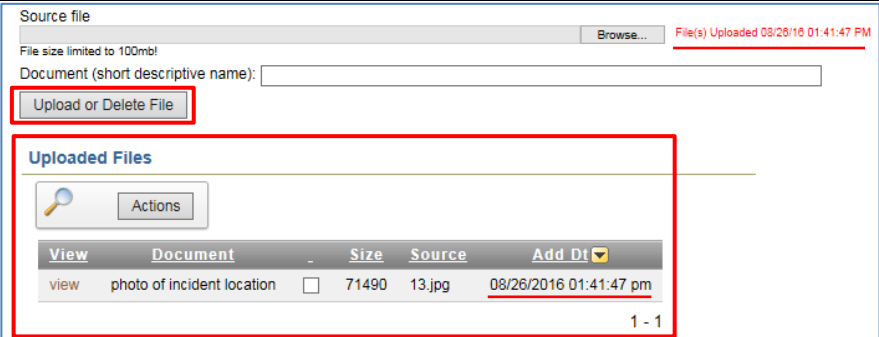

| Step | Action | Result |
|------|--|--|
| 1. | Click on the Browse... button. | The 'Choose File to Upload' dialog box displays. |
| |  | |

Uploading Supporting Documentation to an AIR Report, continued

Important Note

If the source file you are trying to upload contains invalid characters in the file name or is a duplicate of an existing file within the Upload system, you will receive a message when you attempt to upload the file stating the file has been deleted. The file will not be uploaded and you will need to rename the source file before attempting to upload it again.

To Attach / Upload File:

Steps to Upload a File:

1. Click on the "Browse..." button.
2. Browse to the file location.
3. Click on the file and then the "Open" button.
 - Uploaded source file name can not contain any special characters. (except dash, underscore, slash, or period)
 - **Uploaded source file name can not duplicate ANY Uploaded source file name in the system**
4. Type a unique name in the "Document" field.
 - **The "Document" field name can not duplicate ANY "Document" field name in the system**
5. Click the "Upload or Delete File" button.
 - Do not upload ".docx" or ".xlsx" files.
 - (Save ".docx"/".xlsx" files as PDFs then upload the PDF file.)

The screenshot shows a file upload form with the following elements and error messages:

- Source file:** A text field containing "6193548908835431/Hydrangeas.jpg". Below it, a red error message states: "Your file upload name is a duplicate. Please rename your upload file." A red box highlights this message, with an arrow pointing to a larger red box on the right that says "Duplicate source file and Descriptive Name".
- Document (short descriptive name):** A text field containing "Flowers". Below it, a red error message states: "Your document name is a duplicate. Please give your document another name." A red box highlights this message.
- Buttons:** "Browse..." and "Upload or Delete File".
- Metadata:** "6193548908835431/Hydrangeas.jpg", "DELETED UPLOADED IMAGE!", and "09/06/2018 09:22:20".

Upload Multiple Files

You can upload multiple files to the same AIR report. Repeat the previous steps for each file to be uploaded. The Uploaded Files table will update with each additional file that is uploaded.

View an Attached File

After you have attached a file to an incident, you can view it to confirm it uploaded successfully and is accessible.

| Step | Action | Result |
|------|--|--|
| 1. | To view an uploaded file, click on the 'view' link next to the uploaded file name in the Uploaded Files table. | The file will display automatically, or you may be prompted to open <i>or</i> save the file. If prompted, choose 'Open.' Depending on your browser settings and the type of file that was uploaded, the file will open in either a browser window/tab, or in the application it was created in. |
| 2. | After viewing the attachment, close the window/tab or the associated application. | The window containing the AIR form redisplay. |

Continued on next page

Uploading Supporting Documentation to an AIR Report, continued

Delete an Attached File

If you discover you uploaded the wrong file, or you decide you no longer want to include the uploaded file with this incident report, you can delete the attachment.

Note: Deleting an attached file does *not* delete the source file from its original location.

| Step | Action | Result |
|------|---|---|
| 1. | To delete an uploaded file from an AIR report, click on the check box next to the Document name in the Uploaded Files table. | A checkmark appears in the box, indicating which document is to be removed. Note: While documents must be uploaded one at a time, multiple documents can be removed in one delete action. |
| 2. | Click on the Upload or Delete File button. | <ul style="list-style-type: none"> The attached file is deleted from the AIR report. The Uploaded Files table is updated. A deleted file message and date/time stamp displays. |

The screenshot shows a web interface with a button labeled "Upload or Delete File" at the top. Below it is a section titled "Uploaded Files" containing a search icon and an "Actions" button. A table lists three files:

| View | Document | | Size | Source | Add Dt |
|------|----------------------------|-------------------------------------|--------|--------|------------------------|
| view | photo #3 | <input checked="" type="checkbox"/> | 91123 | 12.jpg | 08/26/2016 02:19:21 pm |
| view | photo #2 of incident | <input checked="" type="checkbox"/> | 161449 | 15.jpg | 08/26/2016 02:13:44 pm |
| view | photo of incident location | <input type="checkbox"/> | 71490 | 13.jpg | 08/26/2016 01:41:47 pm |

Page indicator: 1 - 3

The screenshot shows a "Source file" upload form with a "Browse..." button. A red box highlights a message: "12.jpg File Deleted. 08/26/16 02:22:16 PM" and "15.jpg File Deleted. 08/26/16 02:22:16 PM". Below the form is another "Uploaded Files" section with a search icon and "Actions" button. A table lists one file:

| View | Document | | Size | Source | Add Dt |
|------|----------------------------|--------------------------|-------|--------|------------------------|
| view | photo of incident location | <input type="checkbox"/> | 71490 | 13.jpg | 08/26/2016 01:41:47 pm |

Page indicator: 1 - 1

NOTE: Only the user that uploaded the file can delete the file.

Printing an AIR Report

Introduction

If the person or organization reporting an Adverse Incident wants to keep a copy of the report, it must be printed before the submitted report is closed. Once closed, the incident is no longer available to the Reporter.

The *Print View of Air Report* button is provided for this purpose. While the button is available prior to the report being completed, these instructions assume the report will be printed once the form is complete and has been submitted to KDADS.

How To

Follow the steps in the table below to print an Adverse Incident Reporting form.

| Step | Action | Result |
|------|---|---|
| 1. | Recommended browser page settings: Portrait .5" margins Enable Shrink to Fit turned on | Page settings in Internet Explorer are found under File > Page setup...  OR File > Print > Page setup... |
| 2. | Click on the Print View of AIR Report button located at the top or bottom of the submitted form. | A print View of the report displays. |
| 3. | Click on the Print button. | The report prints to the designated printer. |

Close the Submitted AIR Form

Introduction

After the AIR form has been submitted to KDADS, the final step is to close the completed form window/tab to ensure there is no unauthorized access to the form.

How To

Follow the steps in the table below to close a completed AIR form.

| Step | Action | Result |
|------|--|---|
| 1. | Confirm the form has been submitted to KDADS. | The Submit to KDADS button is no longer available. Report Status will indicate "REPORTED" |
| 2. | Click on the X on the browser tab button. | |
| 3. | If another report needs to be submitted, click on the Reset Page to Enter Another Report button | The window will refresh, and all fields will be cleared. |
